

# Microbioshield Antimicrobial Solution

*An Organic Solution that kills Bacteria, Viruses and Microbes  
for Up To 90 days*

Microbioshield is a newly advanced green product that utilizes nanotechnology and is ready for immediate defense against all bacteria, viruses and microbes; Including **CORONAVIRUS!** The nanotechnology uses a mechanism known as 'mechanical kill' to destroy bacteria, viruses and other microbes on direct contact. The technology can be used on any surface or area including clothing, hospitals, nursing homes, airports, trains and any other areas that can be affected by bacteria or viruses. Once the surface is treated with the Microbioshield it binds to the surface and continues to provide antimicrobial properties for up to 90 days.

## *EASY APPLICATION*

Microbioshield application is very straight forward. Spray the Microbioshield at the targeted area, let dry, and you are done. The technology used is safe for both humans, crops and animals, it can be used without any protective body suits or masks. It can be applied while patients are in their rooms.

## *FAST-ACTING*

Once the Microbioshield is applied to the targeted area, the solution begins to work immediately and continues to prevent and kill bacteria, viruses and harmful microbes. The product is certified organic! There are no harmful chemicals so Microbioshield can be applied to any surface without worry.

## *CONTROLS MANY BACTERIA, VIRUSES, FUNGI AND ALGAE*

Microbioshield is tested and proven to kill on contact:

- Over 20 viruses such as SARS-CoV-2, H1N1, HIV-1 (AIDS) and many Flu strains; 60 species of bacteria including *Staphylococcus aureus*, *E. coli*, *Legionella pneumophila* and MRSA and fungi such as the Aspergillus family, Cryptococcus family, Penicillium family and algae such as *Chlorella vulgaris*, *Protococcus* and *Pleurococcus*.

## *COVERAGE*

1 gallon of Microbioshield will cover 5,000 sq. ft.

## *APPROVALS, CERTIFICATIONS*

Approvals:

FDA, EPA, OMRI Certified Organic

Also approved for use in the European Union, United Kingdom, United Arab Emirates, Ireland

The Microbioshield product was invented by Erwin Lo, M.D. Board Certified Neurologist. It is manufactured at plants in Minnesota, New Jersey, Texas and Wisconsin.
